

Technical specifications

	Special II males	Special III turkeys
Max. length feed line	120 mtr	120 mtr
Diameter conveyor tube	45 mm	45 mm
Capacity	450-650 kg / hour	450-650 kg / hour
Distance between pans	100 - 300 cm	100 - 300 cm
Number of birds/pan	10	60 - 70 rearing, 30 - 40 finishing
Capacity feed pan		
Small cone		
min		± 890 g
max		± 2000 g
Large cone		
min	± 640 g	
max	± 1700 g	
Contents feed hopper	175 ltr	175 ltr
Motor power	0,55 kW / 0,75 kW	0,55 kW / 0,75 kW
Speed of gearbox	320 r.p.m. / 530 r.p.m.	320 r.p.m. / 530 r.p.m.

- Rigid construction
- No grill
- Simple feedlevel adjustment
- Removable cone for feedpan
- Easy to clean
- Low feed waste
- Excellent results

Feed pan Special, the best solution for males and turkeys!

Special II

Control of feed distribution

- Individual feed level adjustment per feed pan
- Design of the feed pan bottom, edge and six wing feed divider prevents feed spillage
- 6 different settings of feed level

Absence of the grill

- Provides easy access to feed
- Prevents injury of the comb

Durable

- All materials used are of high quality and guarantee a long lifetime
- Drive unit standard equipped with motor protection switch and electronic level control sensor

Special III suitable both for rearing and finishing

- Provides the best results for rearing turkeys from 0 to 6 weeks
- Feed space design is ideal for heavy birds
- The absence of the grill prevents birds from getting caught inside the feed pan

High accessibility

- A special anti waste ring makes the pan extremely suitable for finishing turkeys up to 16 weeks
- The ring can easily be installed and removed with a slotted bolt
- The ring increases the diameter of the pan which makes the Special III very accessible for heavy birds
- Minimizes feed spillage
